970-763-8365

My name is Justin Selbach and I want to be on your Minturn Town Council. I moved from Syracuse NY to Avon in 2016, then from Avon to Minturn in 2020. I grew up working at a neighbor's greenhouse and on their dairy farm in upstate New York. I then spent time waiting tables, fixing production line equipment at an antibiotics factory, and spent a few years working as a paralegal before moving West. In Colorado I initially worked at a ski shop, a restaurant and as a gardener for Intermountain Landscaping in Minturn. I have worked at RA Nelson since 2020. I operate the excavation division, prepare estimates, and manage small projects. My experience has been diverse.

I am a skier, mountain biker and white water paddleboarder. My partner and I love to camp, hike, and explore on our weekends. We love Minturn. Minturn is the best place I have lived in this valley that truly feels like a community. This town is a special place to live and to raise a family. I want to be your town Councilman to preserve this community and its culture.

I hope for a future of Minturn that resembles the past, the local's community of the valley. A town vibrant with families and the local workforce thriving together. A town that develops to maximize our capacity for year-round community members, developing cautiously and consistently with that vision. Keeping the economy localized so we can invest in our infrastructure, transportation, and community services. Building the community to support these services. Minturn's growth is inevitable, which could be great, if we ensure that happens responsibly and consistently with our values. My experience in the construction industry and the tourism industry can provide the town with valuable insight to help achieve that goal.

Specifically, my experience in civil construction can provide the town with valuable insight when it comes to the various projects and utility upgrades required in town. If elected I will thoroughly vet these projects on behalf of the town to provide a professional opinion on those matters. I look forward to collaborating with the people of Minturn to move forward in a positive direction that we can all agree on.

I look forward to meeting you at the Candidate Forum, otherwise feel free to reach out to me with any questions.

Thank you for your consideration!

Justin Selbach
