

US 24 at Minturn Roadway Improvements

Project Update: October 4, 2019

ACC has several activities going on next week that will have crews strung out south of Cemetery road through town. The major work item is the milling starting on Wednesday. ACC will be milling curb to curb within the town limiting parking during work hours. On Wednesday, parking on Main between Cemetery Road and Meek will be prohibited. On Thursday, parking will be prohibited from Cemetery Road to the end of the project on the south side of town. And, on Friday and Saturday, there will be no parking from Meek to Magustos. During milling operations will prompt lane closures of approximately 1/4 mile requiring alternating traffic in the opposing lane at the direction of a flagger. Holds of up to 15 minutes during the hours of 9 a.m. - 7 p.m. should be expected. It should also be noted that milled roadway is not ideal for cyclists and riders can anticipate milled surface within the corridor through the week of October 14. Please plan accordingly.

ACC and the town will be relocating and installing and testing new hydrants which will disrupt water service for some users. On Monday work will affect water for properties on the block of Mann St. to Meek Ave. On Wednesday and Friday water work will involve properties in the 800 to 1000 blocks of Main Street. Water service should only be disrupted for 4-6 hours between the hours of 9 a.m. - 7 p.m. Please be aware of the possibility of brown water which is normal after a water shut off due to sediment in the pipe. ACC asks you to do the following once your water is back on:

- Run your water through a faucet or tap for at least 15 minutes.
- Contact ACC or the Town of Minturn if the discoloration persists after the flush.

Notices will be distributed to affected residents 48 hours prior to any water service disruption.

Other activities next week include storm drain and curb/gutter within town at the intersections of Main and Harrison, Norman and Toledo. A concrete crew will also be working on the east side of US 24, south of Cemetery Road.

As we continue on the curb and gutter work, coordination between our crews and property owners will be paramount so please look for the 24-hour notice on your front door as our work may limit access for multiple days. If you have a potential conflict, such as moving, please contact us and we will figure out a way to accommodate or plan around your needs.

ACC will be working Monday - Saturday 7 am - 7 pm. Weekday traffic control will not begin until after 9 a.m. ACC may also shift traffic in certain areas so please stay alert and watch for the directional cones during work hours.
